[Betalingbewijs dossier PMV-01 \(20150690 NLTG\).msg](#)

Beste [REDACTED],

Verwijzend naar ons telefoongesprek van vorige week, heb ik van onze boekhouding bevestiging gekregen dat er inderdaad nog een openstaande factuur is van 6820 euro. Wij zorgen voor de betaling.

Tegelijkertijd vroeg onze boekhouding naar het duplicaat van de factuur voor het bedrag van 8260 euro dat u op 16/11/15 reeds werd overgeschreven (zie betalingsbewijs in bijlage en vraag van 7/1 in onderstaande mail). Om in orde te zijn bij een toekomstige controle/audit van onze boekhouding dienen wij over dit factuur te beschikken. Een betaling van een bedrag waarbij enkel verwezen wordt naar jullie tarievenbesluit volstaat niet. Kan u dit ontbrekende factuur nog aan ons doormailen zodat ook ons 'verhaal' klopt ?

Dank en Vriendelijke Groeten,

[REDACTED]

Beste [REDACTED],

Op 16/11 werd u het aanvraagdossier voor het gewasbeschermingsmiddel PMV-01 bezorgd. Op 18/11 hebben we het CTGB een kopie toegestuurd van het betalingsbewijs. Zie bijlagen aan deze e-mail.

Volgens jullie Tariffs Decree (pag 18 punt b) zou ons hiervoor nog een factuur worden bezorgd. Aangezien onze boekhouding hiernaar vraagt, horen wij graag van u wanneer wij de factuur mogen verwachten voor de reeds uitgevoerde betaling.

Vriendelijke Groeten,

[REDACTED]

Voor De Ceuster N.V.

Dear [REDACTED],

A paper dossier is not necessary, a digital dossier in Word is sufficient. Only the application form and, if applicable, the Letter of Access need to be presented in paper.

Concerning the national requirements I refer to following information, see link below:

<http://www.ctgb.nl/en/plant-protection/assessment-framework-plant-protection-products/evaluation-manual>

Information about fees can be found in our tariffs Decree, see link below:

<http://ctgb.nl/docs/default-source/Tarieven-2014/lse-3-tarievenbesluit-ctgb-2015-v2-0-ukdefjvv.pdf?sfvrsn=2>

See page 4, Applications for which Ctgb is not rapporteur (NL is CMS)

I hope to have informed you sufficiently,

Yours Sincerely,

[REDACTED]
Ctgb Servicedesk

Onderwerp: RE: Application for approval of the preparation PMV-01 under Regulation 1107/2009

Dear Madam, Dear Sir,

If we're correct, we haven't yet received an answer on our below e-mail.

Could you please inform us on the format (pdf or Word) and the number of copies you would like to receive from the complete Annex III dossier?

Further, we would like to hear from you whether there are national requirements and what is going to be the application fee in case you act as Concerned Member State.

Thanks and Best Regards,

[REDACTED]

Onderwerp: Application for approval of the preparation PMV-01 under Regulation 1107/2009

Dear Madam, Dear Sir,

Re : Application for approval of the preparation PMV-01 under Regulation 1107/2009

Pepino mosaic virus, strain CH2, isolate 1906 is a new active substance for which De Ceuster N.V., Belgium submitted an Annex II dossier to the Belgian authorities acting as Rapporteur Member State, in 2012.

The evaluation of the Annex II dossier is in its final phase. The Draft Assessment Report and Conclusions on the Pesticide Peer Review of the active substance *Pepino mosaic virus*, strain CH2, isolate 1906 have been made public (see EFSA Journal 2015;13(1):3977 of January 9, 2015). The inclusion of *Pepino mosaic virus*, strain CH2, isolate 1906 on the Annex I list is expected within a few months.

The end use product PMV®-01 for which we are now applying for approval is containing the new biological active substance *Pepino mosaic virus*, CH2 strain, isolate 1906. It was also the representative formulation in the Annex II dossier. PMV®-01 is identical to the technical concentrate Tomato watery leaf extract containing *Pepino mosaic virus*, strain CH2, isolate 1906. Since large-scale purification of the virus particles from tomato leaves is not feasible, all research and data included in the Annex II dossier for the active substance were conducted on the technical concentrate Tomato watery leaf extract containing *Pepino mosaic virus*, strain CH2, isolate 1906. As a consequence most of the data included in the Annex III dossier for PMV®-01 are the same as those included in the Annex II dossier for the active substance *Pepino mosaic virus*, strain CH2, isolate 1906.

PMV®-01 is used as a biocontrol agent in tomato crops under protection. Therefore there is only one zRMS needed for the three European Zones.

The Annex III dossier will be submitted to the Belgian authorities acting as zonal Rapporteur Member State for the three European zones. A copy will be sent to the competent authorities in the following Member States acting as concerned Member State.

Czech Republic

France

Germany

Greece

Hungary

Italy

Netherlands

Poland

Portugal

Spain

United Kingdom

We would be pleased if you could inform us on the format (pdf or Word) and the number of copies you would like to receive of the complete Annex III dossier.

If you also need a hard copy of the dossier, thanks to let us know.

Finally we would like to hear from you if there are national requirements that need to be fulfilled and what is going to be the application fee (and other retributions if applicable) in case you act as Concerned Member State ?

Thanks and Best Regards

For De Ceuster N.V.
