Dear All

Following the suggestion by 5.1.2.a Woo, please find attached new versions of the draft amending Regulation and the Annex in TC and clean format.

Best regards,

5.1.2.e Woo

Dear 5.1.2.e Woo

Will you be able to circulate the latest versions of the revised draft Regulation, that you have added to the agenda for next week? If possible, it would be very much appreciated if it could be circulated already by tomorrow, Friday.

Kind regards,

Dear all,

Following on from my message below, I would like to propose two possible dates for a further face-to-face meeting: 6 February or 13 February.
Please let me know your preferences – once the most suitable date is identified, we will send a formal invitation, including the confirmation that travel costs will be reimbursed for one expert per Member State.

In terms of timing, I would propose 11 h to 15 h, so that all can travel her and back in one day.

Provisional agenda items (feel free to suggest others):

- Confirmation of the Member States for participation in the consortium – so that we can advance with the draft Regulations
- Finalisation of the draft Regulations
- Finalisation of the governance model
- Discussion – and finalization as far as possible on the draft document with agreements on communication and practical issues (announced by Sweden)

Please let me know about your date preference by tomorrow 25 January end of business.

Regards,

5.1.2.e Woo

Dear 5.1.2.e Woo

Thank you for the new version.

We have no further comments from the Commission side and look forward to the document with more practical and detailed arrangements, on which 5.1.2.e Woo is working.

I would also like to inform all that we have the possibility to organise another face-to-face meeting of the coordinators here in Brussels and can reimburse travel costs for one person from each of the 5 Member States. If considered useful to finalise all documents, we could have such a meeting in the course of the first two weeks of February (date to be agreed at mutual convenience for all participants) so that we could inform PAFF and vote on the draft Regulation(s) amending Regulations 844/2012 and 686/2012 in the meeting of the Committee in March.

Dear all,

Thank you for your comments. Please find attached an amended version of the governance model. The changes are marked, except the textual changes (e.g. 'member states' is now 'Member States'). In the meanwhile, 5.1.2.e Woo is working on a first draft of a document with more practical and detailed agreements. I have referred to this document in my comments in the enclosed document. Please send your comments not later than Monday 21st of January.

Kind regards, 5.1.2.e Woo

Onderwerp: governance glyphosate consortium

Dear all,

As discussed last week 5.1.2.a Woo and 5.1.2.a Woo have made a new version of the document describing the governance structure of the RMS consortium, see enclosed document.

It might be a good idea to send this document to SCoPAFF, for information only, together with the Regulation appointing the group of RMSs for glyphosate?

Additionally, ^{5.1.2.a Woo} proposed to draft a separate document with more details on responsibilities (e.g. the role of the project managers and their responsibilities with regard to the communication with applicant and EFSA) and practical issues. This can be regarded as an internal work instruction for the steering committee. ^{5.1.2.e} supports this proposal. ^{5.1.2.e Woo} offered to make a draft in the beginning of January. Elements that should be included in this document:

- we agreed that the division of the work is irrelevant for people outside the consortium since we act as a group of RMSs, so we will not communicate about this
- communication is a very important item and should be aligned by the steering committee, as described in the enclosed document. Within the consortium, we should be very clear about the communication: who does what? The way ^{5.1.2.e} sees this is that the project manager is responsible for the day-to-day communication with the applicant and, where relevant in the process, with EFSA. This is the regular task of a project manager. Communication is done via the functional mailbox. Communication with e.g. general public, including press, should be done by the steering committee. For ^{5.1.2.e} this is an extremely important point, since this is the key element why we act as a group. And we really mean communication by the steering committee, also in case the press in one of the MSs wants information, this will not be given/done by an individual member state, but by the steering committee. Please, also respond if you agree with this or not. We should also realize ourselves that it might be necessary during the renewal process to get external support for the communication.

With regard to the division of the work: I have included the document that ^{5.1.2.e Woo} sent earlier. Can you please indicate in this document which (sub)sections of the dossiers you can assess?

Of course this is, at this moment, a draft, because we all have to get the final mandate to act as RMS and to assess the sections we now indicate.

Please send your comments to the document and this mail not later than the 8th of January.

Kind regards, Merry Christmas and a happy New Year to all of you!

^{5.1.2.e Woo}
