Onderwerp: Media attention about the glyphosate assessment

Dear colleagues,

I would like to inform you that a Dutch radio program will pay attention to the previous assessment of glyphosate, the safety of the products currently on the market and - briefly - to the upcoming assessment. We have agreed to an interview by Ingrid (Becks) who will explain the assessment process and the points of view of, among others, BfR, Efsa and Iarc.

Kind regards,

[redacted],
Ctgb
