**Betreff:** Aw: FS1: Glyphosate based products - Question to Registration Reports [PDF]

Dear Mr 5.1.2.e Woo,

Thank you for your e-mail. The finale registration reports (RR - Part A and C) will be uploaded on CIRCABC shortly.

The revoke of the existing authorisations for glyphosate-based products was mainly based on the potential genotox aspect. Various cases were encountered namely either no test submitted, or only one test was provided, or tests were not considered acceptable since they were not conducted as per the guideline standards. The details were clearly reported in the registration reports.

Kind regards,

5.1.2.e Woo

**Objet :** Glyphosate based products - Question to Registration Reports

Dear Mr. 5.1.2.e Woo,

My name is 5.1.2.e Woo and I am working at the German Federal Institute for Risk Assessment (BfR) in the Pesticides Safety Department, Unit Steering and Overall Assessment Plant Protection Products.

5.1.2.e Woo provided us with your contact information.

With regard to the press release on the revoke of 36 Glyphosate based formulations we wonder if the finale registrations reports (RR - Part A and C) can be found somewhere (CIRCABC)? We are especially interested in the rationale behind the decisions. What we found are some of the registrations reports (Part B - CIRCABC).

May you provide is with information on these topic? If you can give us some further background information on the revoke of the authorisations that would be very helpful.

Many thanks in advance.

Best regards  
5.1.2.e Woo
