6. ED GUIDANCE

- Public consultation on-going
- Key input from the Workshop with Member States and stakeholders
- SANTE confirmed the adoption process, including a PAFF consultation before publication to align with ECHA process for biocides
- MS to align the RA and RM views, also on the RM considerations and needs (including national impact assessments) based on the draft guidance

7. CUMULATIVE ASSESSMENT

- EFSA is validating the exposure assessments conducted by RIVM
- In parallel the Cumulative Assessment Groups will be updated
- Initial plans are to publish the first two examples on cumulative risk assessment based on the monitoring data this year
- RIVM informed EFSA on national request for conducting cumulative assessment for the Dutch population in few months. Discussions on-going trying to align both processes

8. OECD CONSULTATION

- Buiten reikwijdte verzoek
