Subject: art. 50.2

Dear 5.1.2.e Woo,

During our meeting in Paris, the ANSES mentioned that they were using art.50.2 for (against) placing certain products containing glyphosate on the French market.

One of my policy colleagues, 5.1.2.e Woo, has a few additional questions.

- do you use art.50.2 for products for professional use, non-professional use, or for both?
- do you use art.50.2 only for glyphosate-based products, or also for products based on other active substances?
- did you create a procedure for this exercise, comparable to what is taken up in the GD on comparative assessment?

I understand that you're at the SCoPAFF now, and that Christmas is approaching fast, but we would welcome a reaction from you!

And if you have any questions, please address them to 5.1.2.e Woo

I wish you a Merry Christmas and a happy New Year,

Best regards, 5.1.2.e Woo
