Onderwerp: RE: CZSC - draft Agenda March 2019

Dear 5.1.2.e Woo and all,

Please find attached the documents draft by NL for the agenda of the teleconference of 29th March:

- The most important point is the discussion on glyphosate, as the first products will be renewed within short. We regard it important that MS handle in a harmonized way, to prevent further commotion on this subject.
- Furthermore, the updated summary on non-professional uses is attached (new updates in track changes).
- For your information; on the AOB point ' 2 independent notifiers for AS renewal dossier: opinion on data protection' we have not yet made a new explanation for the MS. In case we want to continue this, we will send the question by e-mail (and we could add it -last minute- to the agenda, when needed)
- At last, I would like to add a new AOB point:

NL would like to ask how MS handle for this specific situation: Comparative Assessment (CA) at renewal of products based on 2 active substances. When the first active to be renewed is no CfS, however the second active is a CfS, but not renewed yet, do MS ask for a CA at product renewal, after renewal of the first active substance?

Many thanks for providing the agenda,
Best regards,

5.1.2.e Woo

Onderwerp: AW: CZSC - draft Agenda March 2019

Dear [redacted]

Cc colleagues from SI for information

Please find attached the amended version of the draft agenda including the comments by NL and some small corrections for your final agreement.

Please note that I included the "open point documents" although some of them still have to be updated with the final attachments.

Let me know if you have any corrections, questions or comments until 14.03.2019. Then I can provide the final agenda and attachments 2 weeks before the TC.

Kind regards and thank you in advance,
On behalf, [redacted]

Betreff: RE: CZSC - draft Agenda March 2019

Dear [redacted]

Thank you for sending this draft agenda well in time before our next TC! My colleagues and I had a quick look and we didn't have any special comment so far, neither did we have major issues to add to the agenda ourselves. We'll await the final agenda with all attached documents to check all relevant updates in detail.

As for the practical issues of the upcoming TC, the following information could be put in the e-mail with the final agenda:

Meeting number: [redacted]
Password: [redacted]

Dial in numbers could be copied from last time:

- AT: [redacted]
- CZ: [redacted]
- DE: [redacted]
- HU: [redacted]
- IE: [redacted]
- LU: [redacted]
- NL: [redacted]
- PL: [redacted]
- RO: [redacted]
- SI: [redacted]
- SK: [redacted]

UK: 5.1.2.e Woo

Only for RO, the WEBEX-tool didn't provide a specific RO telephone number, although I would suppose this will not pose any problems in practice.

If somebody would have any practical problems, they could reach me on my cell phone: 5.1.2.e Woo

Kind regards,

5.1.2.e Woo
