<p><u>Description of Topic:</u></p> <p>DE (UBA) would be interested to know how environmental risk assessors and risk managers in the other MS of the central zone deal with the implementing regulation renewing the approval of the active substance glyphosate (EU 2017/2324 of 12 December 2017). For the first time for an active substance, explicitly requires all EU-Member States to pay particular attention to: “[...] the risk to diversity and abundance of non-target terrestrial arthropods and vertebrates via trophic interactions. Conditions of use shall include risk mitigation measures, where appropriate.”</p>						
<p><u>Proposed Action:</u></p> <p>MS are kindly asked to fill in the questionnaire.</p>
