A.03.2.a Mancozeb

Dear **5.1.2e Woo**,

Please find below the Ctgb's technical comments on Mancozeb.
Please note that we do not yet have a final position.

The applicant indicates that they are in the process of submitting a new CLH dossier with new studies. However, for renewal of mancozeb we should base the decision on the data that were available in the renewal dossier and not wait for any new information that may or may not change the classification. The proposed classification in the EFSA conclusion is in line with the conclusion made by RAC (Repr. 1B and Carc. 2) and seems scientifically justified on the basis of the information that is currently available.
