[REDACTED] **STUDY NO. 438618**
STUDY TITLE: Glyphosate: 104 Week Dietary Carcinogenicity Study in Mice

Dear [REDACTED]

With reference to the study named above.

The historical control data provided for haemangiosarcoma and histocytic sarcoma in Appendix 17 of the report were compiled from studies carried out at the [REDACTED] [REDACTED] in the Charles River CD-1 mouse and were all terminated between September 1988 and September 1991.

Kind regards
