Ha 5.1.2.e en 5.1.2.e
Adhoc beleidsadviesing gewasbescherming 4.2 graag bijenworkshop vermelden. Houden jullie zelf ook een beetje in de smiezen hoe het gaat met de uren. We kunnen hier max 250 uur aan besteden. Ik zie de uren alleen aan het eind van de maand en in 1 maand kan het heel snel gaan met de tijdbesteding.
Groeten, 5.1.2.e

Hoi 5.1.2.e
Inmiddels hebben 5.1.2.e en ik al best wat uurtjes gestopt in de voorbereiding van de bijenworkshop. Heb jij een tijdschrijfcode voor ons?
Groeten 5.1.2.e

Onderwerp: Testcase workshop bee guidance EFSA for next week

Hi 5.1.2.e and 5.1.2.e

Here is the information with which you can, next week, do the 'try out' of the bee GD workshop.

As it is necessary that all MS prepare for the workshop in a similar way, I have prepared an excel sheet in which you can fill in all the steps required to do by the Guidance document (for now spray treatment only). This will provide structure for the discussions in the workshop. It is not intended to be a calculator tool; everyone will have to fill in all the steps themselves. In that way everyone will be forced to familiarize themselves with the GD.

<< Bestand: workshop spreadsheet EFSA GD.xls >>

As I discussed with 5.1.2.e already, this is a proposal only; if you think it does not work in this format, please suggest improvements!

The case to do is:

<i>This case is selected by NL, DE and EFSA for a practice round in week 43 by NL</i>				
insecticide that is also used as varroacide	tau-fluvalinate	spray treatment	oilseed rape	1x 48 g a.s./ha (intended use in DE)

I have attached the publicly available evaluation of the EU dossier (5.1.2.e if it does not work, I also put it on T:\CTGB\CTBPcCommon 5.1.2.e Bee workshop EFSA GD 2013\tau-fluvalinate). 5.1.2.e if needed, you can probably find also the studies themselves in the Ctb archive; however, I propose to try to do as much as possible without really going into depth into the studies, since this will take a lot of time which most MS will probably not have in the preparation for the workshop.

If you need more information then given by me now, please just improvise as you see fit (e.g. invent a product; ask DE for more information on application timing, ...), so that you will get at least a general idea on the feasibility of the process.

5.1.2.e I will come see you now to explain things :-).

Buiten reikwijdte verzoek
