Draft assessment of glyphosate updated

The Assessment Group on Glyphosate – made up of French, Hungarian, Dutch and Swedish authorities – has submitted updated versions of the Harmonised Classification and Labelling (CLH) and Renewal Assessment (RAR) reports to ECHA and the European Food Safety Authority (EFSA).

ECHA and EFSA will now carry out administrative work needed before the documents are made available for consultation. The parallel consultations were announced for the first week of September 2021 but will be rescheduled. The new timing will be communicated later.

REACH

Guidance on registration updated

This new version of the guidance reflects the situation after the end of the 2018 registration deadline, incorporates the European Commission's latest implementing regulations and clarifies when companies need to update their REACH registrations.
