Member States are invited to send comments and reactions by 4th November to 5.1.2.e 5.1.2.e about the following aspects discussed during the meeting:

- o Scope document rev.76 (update): please send additional comments on the version 76, in particular, to follow-up on the comments made by two Member States on the status of certain entries concerned by the interpretation of physical barriers.
- o SILTAC and other polymerised siloxanes products: please send replies to the following questions:
 - § To your knowledge, are those products commercialised in your Member States?
 - § Based on the information provided by manufacturers, do you consider (all of or some of) them as falling in the scope of the Regulation 1107/2009?
 - § Your reaction towards the safety sheet prepared by one Member State (please check CIRCA-BC as it was posted after the meeting);
 - § In case of confirmation of the status as plant protection products:
 - Do you see the need for a transition period in view of the submission of the necessary dossier for approval as an active substance and the further authorisation as plant protection products?
 - How long should this transition period be?
 - How to legally constrain manufacturer to regularise the situation?
