Subject: Captosan 500 SC – captan Art 43 – submission

Our reference: NL25\_015

Dear madam, sir,

Following the renewal of captan (Implementing Regulation (EU) 2024/2186), please find attached the dossier for the captan Art 43 submission of Captosan 500 SC (10104 N) for which NL has agreed to act as zRMS.

For the product we are asking for a delay in the dRR submission due to Category 4 data. Due to the unexpected restriction in the renewal regulation, allowing applications in orchards only with application equipment that increases the precision and accuracy of the application, dose rate has to be reduced. Therefore there is a need for new efficacy and residue trials. 5.1.1.c

5.1.1.c. A more detailed request for Cat 4 data is elaborated in a separate cover letter, which is also send to all concerned Member States in the Central zone.

As we submit a request for Cat 4 data, we have included in this application only administrative documents. Please find in this application the following documents:

- Application form
- Request for delayed submission due to Cat 4 data
- Study contracts
- Compliance Statements
- GAP
- Registration certificates
- List of new studies
- CoCh report
- Data related to the sources of ai

If more information is needed, or when you have questions, do not hesitate to contact me.
