January 28th 2025

MCW-2067

Renewal of authorisation (Article 43)

Statement on Good Agricultural Practice (GAP)

We, undersigned ADAMA MAKHTEHSHIM Ltd., make the following declaration as regards to the Good Agricultural Practices (GAP) of

MCW - 2067

- ☐ No significant changes compared to previously registered GAPs have been necessary.
- ☒ Significant changes to previously registered GAPs were necessary to comply with changes in the assessment of the active substance due to:
- ☒ New active substance endpoints
 - ☒ Outcome of risk assessment
 - ☐ Risk envelope approach
 - ☒ New Guidance Documents
 - ☒ Other: restrictions from Regulation 2024/2186 of 3 September 2024

Once Cat.4 studies will be finalized, Adama will be able to define GAP that will be defended in the framework of the article 43 application. An updated GAP statement will be provided along with the complete dRR submission.

- ☐ Some changes to previously registered GAPs to comply with the Captan AIR3 supported GAP, e.g. changes to max. seasonal application rates and number of applications respectively. These changes remain within the range of the currently registered GAPs.
